ABOUT *University*

Krasnoyarsk State Medical University is a leading higher medical University in Siberia and the Far East region. Krasnoyarsk State Medical University holds **17th place** in Medical Universities of Russian Federation and 3rd place in Siberia and the Far East region.

Krasnoyarsk State Medical University is a fusion of Leningrad Medical Institute and Leningrad Paediatric dental institute. Krasnoyarsk State Medical University was formed in **1942** as Krasnoyarsk Medical Institute by the Order of the All-Union Committee for Higher Education.

Till 1958 Krasnoyarsk Medical Institute had only medical faculty, but in 1958 the pediatric faculty was inaugurated. In 1978, faculty of dentistry, in 1992, faculty for Higher Nursing Education and in 2006, the Faculty of Pharmacy was opened. In its history, Krasnoyarsk State Medical University has trained more than 30 thousand doctors, pediatricians, dentists, managers and organizers of practical public health. In the last five years, Krasnoyarsk State Medical University has trained about 2,500 doctors.

In recent years, Krasnoyarsk State Medical University has continued its legacy of excellence in educating healthcare professionals. With a rich history dating back to 1958, the university has expanded its offerings to include various faculties catering to different branches of medicine. The addition of the pediatric faculty in 1958 marked a significant milestone, followed by the establishment of the dentistry faculty in 1978, the Higher Nursing Education faculty in 1992, and the Faculty of Pharmacy in 2006.

Currently, the Krasnoyarsk University enrolled about 800 students in all faculties. Krasnoyarsk State Medical University is constantly evolving. In the last five years, Krasnoyarsk State Medical University has opened eight new Departments Morphological Centre, Laboratory of Anthropology, Institute of Nutrition, Interdepartmental Biochemical Research Laboratory.

Krasnoyarsk State Medical University has implemented new and interesting joint projects on an international level together with other universities of Krasnoyarsk, Russia, Japan, France, Italy, Germany, and other countries. Today Krasnoyarsk State Medical University has 66 departments and staff of 690 professor and teachers.

Krasnoyarsk State Medical University is truly making strides in its development and growth. With a current enrollment of around 800 students across all faculties, the university is dedicated to providing quality education and opportunities for its students. Over the past five years, the university has demonstrated its commitment to progress by establishing eight new departments including the Morphological Centre, Laboratory of Anthropology, Institute of Nutrition, and Interdepartmental Biochemical Research Laboratory.
